AGRICULTURAL ENGINEERING (Agricultural Engineers)

The engineer's place in agriculture ..	377
The Golden Anniversary of agricultural engineering	513
Tomorrow's agricultural engineers—their opportunities	514
An appreciation of J. Brownlee Davidson	536
Creative engineering: what is it? ..	587
Tomorrow's agricultural engineers—their training	670
Impact of nuclear engineering on agricultural engineering	853
Aeration, Cooling stored grain by ..	238

Allen, R. S.	
Evaluation of shredded legume-grass silage	588

AMERICAN SOCIETY OF AGRICULTURAL ENGINEERS

ASAE — its founding and first fifty years	378
Presidents of ASAE	384
The Golden Anniversary of agricultural engineering	513

Anchorage of buildings with fluted nails	87
--	----

Andrews, Henry	
Methods and equipment for low energy irradiation of seeds	666

Andrews, Roy G.	
Aids for determining runoff probability	164

Applicators for control of European corn borer, Granular insecticide ..	298
---	-----

Ashby, Wallace	
Fifty years of development in farm buildings	426

Asphalt roofing on low-slope roofs ..	26
---------------------------------------	----

Axtell, J. D.	
Recharging ground water by irrigation	98

B

Bainer, Roy	
The engineer's place in agriculture ..	377
The Golden Anniversary of agricultural engineering	513

Baker, Vernon H.	
Harvesting and curing aromatic tobacco	800

Ball, Charles E.	
Imagineering—the next 50 years	736

Barnes, K. K.	
Evaluation of shredded legume-grass silage	588

Beasley, R. P.	
New terrace construction technique ..	32

Blaney, Harry F.	
Irrigation in the far west	414

Bolted plywood gussets	174
------------------------------	-----

Bond, T. E.	
Cooling beef cattle with fans	308
"Cold spots" in the sky may help cool livestock	726

Bondurant, James A.	
Developing a furrow infiltrometer ..	602

Bouwer, Herman	
Infiltration patterns for surface irrigation	662
Flexible tubing in sprinkler irrigation	794

Boyd, J. S.	
Heating air by solar energy	28

Brittain, R. W.	
How surfaces affect pesticidal dust deposition	22

Brown, O. A.	
Methods and equipment for low energy irradiation of seeds	666

Brown, Richard T.	
Individual spring-release beams for moldboard plows	804

Bruhn, H. D.	
Engineering problems in pelletized feeds	522

Buelow, F. H.	
Heating air by solar energy	28
Creative engineering: what is it? ..	587

C

Carleton, W. M.	
How surfaces affect pesticidal dust deposition	22

Predicting pressure drop in pneumatic conveying of grains	168
---	-----

Soil pressure distribution under tractor and implement traffic	854
--	-----

Carter, Deane G.	
Farm building trends	433

Cathode rays on germination and early growth of wheat, Effect of dielectric heating and	302
---	-----

Cloud, H. A.	
Grain drying by heat pump	592

Clyde, A. W.	
New principle in tractor hitch design ..	88

"Cold spots" in the sky may help cool livestock	726
---	-----

Coleman, R. N.	
Accelerated testing: a development tool	518

Combine, High lights in the development of the	528
--	-----

Concrete tube for drainage, Continuously formed	864
---	-----

Conveying of grains, Predicting pressure drop in pneumatic	168
--	-----

Cooler field studies, Bulk milk	94
---------------------------------------	----

Cooling beef cattle with fans	308
-------------------------------------	-----

Cooling stored grain by aeration	238
--	-----

Cooper, A. W.	
Strain gage cell measures soil pressure	232
Soil pressure distribution under tractor and implement traffic	854

Corley, T. E.	
Preparing land for mechanization in the southeast	730

Cowan, A. M.	
Evaluation of shredded legume-grass silage	588

Crane, Jack W.	
Predicting pressure drop in pneumatic conveying of grains	168

D

Davidson, An appreciation of J. Brownlee	536
--	-----

Density: a tool in silo research	806, 860
(Correction)	34, January 1958

Design rain-aid in erosion control studies	740
--	-----

Dieffenbach, E. M.	
Fifty years of tractor development in the U. S. A.	388
(Correction)	739

Dielectric heating and cathode rays on germination and early growth of wheat, Effect of	302
---	-----

DRAINAGE, Land

(See also Hydrology)

Drainage developments during the past 50 years	405
Continuously formed concrete tube for drainage	864
Design of a proportional weir for use in a flowmeter	867

DRYING—Driers

(See also Ventilation)

Evolution of grain drying	526
Grain drying by heat pump	592
Dust deposition, How surfaces affect pesticidal	22

Index to TECHNICAL PAPER ABSTRACTS

- 57-1 Evaporation and evapo-transpiration research in the United States and other countries — Davis, John R. 37
- 57-2 An instrument for measuring the rheological properties of agricultural commodities — Decker, Robert 37
- 57-3 Effective terrace maintenance—Smith, Dwight D. 101
- 57-4 Suggested short-time permeability tests for concrete drain-tile—Manson, Philip W. and Miller, Dalton G. 37
- 57-5 Features and applications of ball screws—Lincoln, C. W. 37
- 57-6 New trends in tractor tires — Nitschke, H. A. 37
- 57-7 Surface and terrace drainage systems for field slopes up to 4 percent — Wojta, A. J. and Peterson, D. R. 37
- 57-8 Drain-yield estimation for interceptor type drains in irrigated areas of Colorado — Frederick, W. J. 101
- 57-9 Automation in barn and feed lot — Clay, Roger 101
- 57-10 Engineering problems in quality control during processing operations—Marmorine, Marvin 101
- 57-11 Practical use of knowledge about evapotranspiration—Van Bavel, C. H. M. 101
- 57-12 New developments with horizontal silos—Hunnicut, Walter D. 101
- 57-13 Methods of estimating evapotranspiration—Levine, G. 181
- 57-14 Financing of farm buildings — Parsons, Jack 101
- 57-15 Equipment for placement of fertilizer and seeding in permanent sod—Jones, T. N. 181
- 57-16 Heat transfer in cooling fruits and vegetables—Guillou, Rene 181
- 57-17 Heating farm homes with electricity-resistance — Sterling, Sanford S. 181
- 57-18 Some notes on drainage structures — Culp, M. M. 181
- 57-19 Trends in the use of liquid fertilizer — Tucker, H. H. 181
- 57-20 Field evaluation of evapotranspiration — Raney, William A. 181
- 57-21 The application of human engineering to farmstead chore operations — Esmay, Merle L. 249
- 57-22 What constitutes a PhD program in agricultural engineering—Schroeder, E. W. 249
- 57-23 Sprinkler irrigation labor requirements with branched laterals — Bouwer, Herman and Helms, J. O. 249
- 57-24 The cost of farm machinery depreciation — Richey, C. B. 249
- 57-25 Metering devices for bulk milk handling — A progress report—Witzel, S. A. 249
- 57-26 Hot water requirements for washing milk pipelines — Brooks, L. A. 249
- 57-27 Engineering education for the creative age—Ryder, J. D. 249
- 57-28 Tilt-up concrete construction—Brandt, M. W. and Pflug I. J. 249
- 57-29 Cooling poultry houses in Georgia — A progress report — Houston, T. M. 334
- 57-31 A stock watering device testing program—Boyd, James S. 334
- 57-32 Engineering problems in fertilizer placement — Walker, Harry B. 334
- 57-33 Irrigation research in the United States and Canada — Committee on Sprinkler Irrigation Research of ASAE 334
- 57-34 Seed cleaning and handling — Harmond, J. E. 537
- 57-35 Water requirements for cotton — Hanson, Eldon G. 537
- 57-36 Dimensionless storage indication curves for damsites—Alling, Edwin S. 882
- 57-38 Development in low-cost subsurface drainage—Busch, C. D. 816
- 57-39 The handling and drying of high moisture chopped hay — Kjelgaard, W. L. 816
- 57-58 Bulk milk cooler heats water—Ahrens, M. C. 694
- 57-61 Poultry housing in the northeast—Longhouse, A. D. 747
- 57-69 Housing and operation studies on California egg farms—Hart, Samuel A. and Cleaver, Thayer 747
- 57-72 Wagon drying of baled hay — Roberts, William J. 537
- 57-74 New methods for handling and storage of loose hay—Wolfe, Walter W. 882
- 57-75 Low cost cooling of livestock shelters using galvanized steel — Bradley, Leland E. 634
- 57-79 Asphalt roofing — Strahan, James L. 747
- 57-83 A report on the First International Congress on farm buildings research—Ashby, Wallace and Molander, Edward G. 747
- 57-84 Drainage progress through the years — Overholt, Virgil 882
- 57-85 Farm drainage pumping in Michigan — Sanderson, Robert A. and Klingelhofer, Karl R. 634
- 57-86 Control of cattail and other vegetation in drainage ditches — Cutler, W. A. and Grigsby, B. H. 816
- 57-90 Evaluation of some major factors in the soil loss equation — Wischmeier, W. H., Smith, D. D. and Uhland, R. E. 816
- 57-94 A comparison of sprinkler size and spacing on the uniformity of water distribution — McCavitt, John 634
- 57-96 Hydrologic techniques in watershed planning — Ogrosky, H. O. 537
- 57-100 A bigger job for engineers in conservation—Williams, D. A. 882
- 57-101 The engineer and soil and water conservation in foreign countries — Israelsen, O. W. 747
- 57-103 Present aims of farm machinery research and testing in Sweden — Burgland, Nils 816
- 57-104 The soil mechanic fundamentals of pressure distribution and soil compaction — Soehne, Walter 747
- 57-106 Review of research on equipment for effective seeding practices — Hudspeth, Jr., E. B. and Hurlbut, W. C. 747
- PL-1 New developments in forest fire fighting equipment — Funk, Ira C. 694
- PL-2 Transportation of large quantities of water for fire fighting over rough terrain — Christian, John F. 694
- PL-6 Backwater caused by bridges — Bradley, Joseph N. 816
- PL-9 Planning and planting for sound abatement — Simonson, Wilbur H. 537
- PL-10 Regional selection of grasses—Kiltz, Burton F. 694
- PL-18 Upstream watershed improvement—Phillips, George R. 882
- PL-19 Methods of determining soil moisture — Haise, R. H. 816
- PL-20 Minimum water requirements of grasses—Criddle, Wayne D. 694
- PL-28 Streambank protection — Parsons, Donald A. 634
- PL-29 The Deer Creek erosion control project—Terbush, Leo S. 747
- PL-30 Paved inverts of open channels — Roberts, McLemore 537
- PL-34 Range and grassland surveys—Renner, Fred G. 634
- PL-35 Hydrologic surveys — Erichsen, Frank P. 694
